## Brand Positioning

Dynamic. Professional. Modern. A personal brand that translates across digital, print, apparel, and broadcast media.

# LOGO ANATOMY

## THE MARK (Slash Graphic)

### Design Rationale:

**Forward Motion:** Slashes suggest speed, direction, and momentum (perfect for cricket—fast bowling context)

**Minimalism:** Abstract enough to work at any size, concrete enough to be memorable

**Versatility:** Can appear standalone or integrated with text

**Modern Aesthetic:** Geometric forms are trendy and timeless simultaneously

### Symbolic Meanings:

Progression & Growth (diagonal upward trajectory)

Speed & Energy (sharp angles)

Separation/Division (delineation between names)

Integration (when combined with text)

# TYPOGRAPHY

## Primary: "SPENCER"

### Rationale:

Dominates visual hierarchy; first name gets emphasis (common in personal brands like athletes)

## Secondary: "JOHNSON"

### Rationale:

Completes identity; secondary positioning but equal visual weight for formal contexts

### Font Family Characteristics:

Clean, no serifs (modern, digital-friendly)

Geometric construction (aligns with mark design)

High contrast between strokes

Strong letterforms (good legibility at small sizes)
